

Time To Focus On Water & Sewer
\$255 MILLION
Now Available in Round 3
Applications Due By June 23, 2017

Clean Water Grants

EFC will allocate grant funds for clean water (wastewater) projects that improve water quality.

Project examples include:

- Rehabilitation of wastewater treatment plants or other facilities.
- Repair, rehabilitation or replacement of sanitary sewers.
- Sludge treatment or disposal facilities.
- Separation of combined sewer and storm pipes.

Drinking Water Grants

EFC and DOH will allocate grant funds for drinking water projects that protect public health.

Project examples include:

- Installation or replacement of transmission and distribution mains.
- Rehabilitation or development of new drinking water sources to replace contaminated supplies.
- Installation or upgrade of water treatment facilities to improve drinking water quality.
